Definitive epilation

DIODE LASER 3 waves

Snell System

Slimming method
without operator

MADE IN ITALY

Body size and weight

Height: 54 cm

Width: 56 cm

Length: 66 cm

Weight: 40 kg

SPOT SIZE

Height: 16mm

Width: 10mm

Technical features

Wavelength: 755nm - 808nm - 1064nm

Output mode: pulse output

Control method: touch control

General power supply: 230 VAC - 10A 50 HZ

Maximum absorption: 2000 Watts

Emission: 1 to 12 pulses per second

Maximum pulse duration: 1-400ms

Frequency: 1 - 10Hz

Luminous spot surface temperature: 0° - 30°C

Energy density: max 40 J/cm²

Fuse specifications: O 5 x 25 10A

Handpiece cooling: up to -6°

Safety class: class I type B

YOU CAN USE IT AS

PERMANENT
hair removal

REGROWTH
inhibition

TOTALLY SAFE
epilation

98%
