FISIKCELLUDERM

Snell System

Slimming method
without operator

MADE IN ITALY

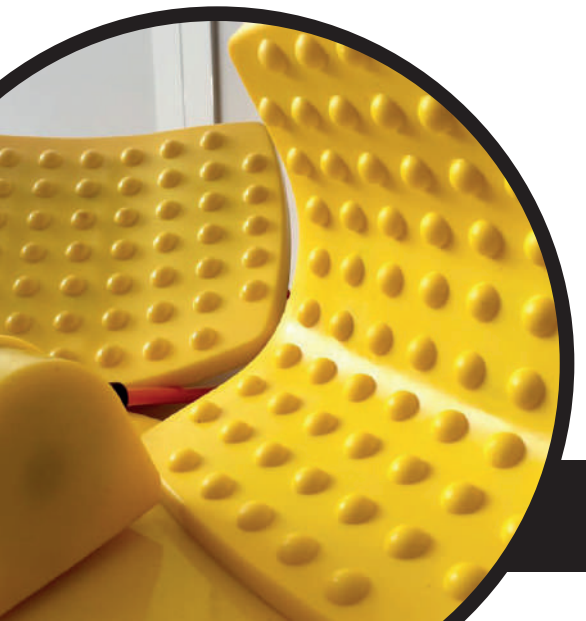

www.becchisline.com

HOW DOES IT WORK?

The treatment consists in kneading up to six points simultaneously without the need for the operator in the treatment room. Furthermore, it is more effective than the manual massage, because it is automated.

The plates are composed, in the part in contact with the skin, with spheres that produce the massage with vibration and oscillation.

FISIKCELLUDERM carries out the ***most energetic and effective body treatment***, since it is the only one that reproduces the manual massage in an authoritative way..
